

First General Services

The FGS Open House was a success

On May 17th a storm kept attendance of the open house to a minimum, however, we had a great turnout on the 18th. Todd Jacobson of Jacobson's Deli did a wonderful job grilling the brats, burgers and hot dogs and all of the food was spectacular. Many people were surprised by the size of the FGS facility and the scope of work that is performed on-site. If you were not able to attend the open house, please feel free to stop by anytime for a tour of the office and shop areas! Below are some photos of the event.

Why should you refer FGS

First General Services of Madison (FGS) uses the best equipment available, including moisture metering tools and a thermal imaging camera to help scope water losses and assure proper drying. The Water Out trailer enables FGS to dry large structural losses including entire houses, hotels and apartment or office buildings in days instead of weeks. The Xtreme Xtractor allows water to be extracted from carpet and allows quick drying without carpet removal. Please visit www.fgsmadison.com to see demo's of this and other equipment.

The FGS team starts with knowledgeable estimators and continues with an in-house staff of painters, dry-wallers, carpenters, cleaners and other specialty craftsmen. This team combined with the state-of-the-art equipment, makes the quality of restoration offered by FGS difficult to beat.
